GOVERNMENT-SUBSIDISED GRADUATE PROGRAMMES

Tuition Fees Per Annum (Academic Year 2012/2013)

Notes:

- All subsidised fee amounts quoted here are exclusive of prevailing GST. The applicable GST is subsidised by the Ministry of Education (MOE).
- Students who have previously enjoyed government subsidy or sponsorship by a Singapore government agency (such as scholarships offered by the Ministries, Public Service Commission and Statutory Boards) in a graduate programme will **not** be eligible for MOE subsidy in another graduate programme at the same or lower level. Instead, such students will be liable to pay "Full Fees" ("Full Fees" to be paid is inclusive of prevailing GST). For example, students who had previously enjoyed subsidy/scholarship in a Master's programme and had attained the Master's degree will not be eligible for subsidy in another programme at Master's or lower level. In addition, if they wish to upgrade and enrol in a graduate programme that has a combination of Master's and PhD candidature, they will not be eligible to enjoy subsidy/scholarship during the Master's candidature.

Students who are not eligible for MOE subsidy are also ineligible for some scholarships. For example, the President's Graduate Fellowship, SMA Graduate Fellowship at SMART, NUS Research Scholarship, Tuition Fee Allowance, NUS Graduate School for Integrative Sciences & Engineering Scholarship (NGSS), etc.

With effect from AY2008/2009 Semester 2, students (all nationality) who did not complete an earlier graduate programme and are now readmitted to another/same graduate programme within NUS or across the Autonomous Universities (NTU, SMU and SUTD) will be eligible for MOE subsidy only up to the maximum course duration for the new course **less** the number of semesters of government subsidy/scholarship received for the previous course(s).

- In some programmes (see Note 6), the University may deem it feasible, based on industry demand, to implement a [Service Obligation Scheme](#) for **International Students**. The determination of this feasibility is at the sole discretion of the University.

In such programmes, the International Student may be offered the option of signing the Service Obligation Agreement in exchange for reduced tuition fees as follows:
