**202 : FINANCIAL MANAGEMENT
(2005 Pattern)**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Attempt any 5 questions.*
- 2) *All questions carry equal marks.*
- 3) *Use of simple calculator is allowed.*

Q1) Describe the various forms and implications of various forms of business organizations. **[14]**

Q2) What is financial system? Discuss the players in the financial system and their role. **[14]**

Q3) What is leverage? State various types and significances of leverages. **[14]**

Q4) Describe the various medium term and long term sources of finance. **[14]**

Q5) Write short notes on any two : **[14]**

- a) Factors affecting working capital requirement of a company.
- b) Bonus shares.
- c) Funds flow statement.
- d) Venture capital.

Q6) From the following information, prepare the Balance Sheet of a company as on 31-03-2010 with as many details as possible. **[14]**

Current ratio	2.5 : 1
Liquid ratio	1.5 : 1
Working capital	₹1,20,000
Reserves & Surplus	₹40,000
Bank overdraft	₹20,000
Fixed assets to proprietor's funds	•75

There are no long term liabilities or fictitious assets.

Q7) A company has the following capital structure.

	₹
Equity share capital (20000 shares)	4,00,000
6% Preference shares	1,00,000
8% Debentures	<u>3,00,000</u>
Total	8,00,000 (eight lacs)

The market price of equity share is ₹20. It is expected that the company will pay a current dividend of ₹2 per share which will grow @ 7% forever. Rate of tax is 40%. Calculate the weighted average cost of capital. **[14]**

Q8) A company wants to arrange overdraft facilities with its banks from January to March 2009. Given following information prepare cash budget for the said period.

	Sales ₹	Purchase ₹	Wages ₹
Nov 08	36,000	24,960	2,400
Dec 08	38,400	28,800	2,800
Jan 09	21,600	48,600	2,200
Feb 09	34,800	49,200	2,000
Mar 09	25,200	83,600	3,000

50% of credit sales realised in the month following the sales and balance 50% in second month following. Creditors are paid with one month delay. Opening cash balance ₹5,000. **[14]**

Q9) Discuss the disclosure requirements of the following items in Schedule VI format – (i) Reserves & Surplus (ii) Fixed assets. **[14]**

**(301) : BUSINESS POLICY AND STRATEGIC MANAGEMENT
(2005 Pattern)**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question 7 is compulsory and it carries 18 marks.*
- 2) *Attempt any four questions from question 1 to 6. Each question carries 13 marks.*

Q1) Why strategic control is necessary? Discuss the basic types of strategic controls with the help of examples.

Q2) Define strategy and explain concept of strategic management. Do you believe that the concept of strategic management is relevant in the current business environment?

Q3) What are the concerns of operations plans and policies? Why are these plans and policies significant for strategy implementation?

Q4) An established company engaged in production and marketing of automobile parts and special instrument/units required by small automobile cars manufacturing company is now experiencing a tough competition due to a large number of entrants in the field, some of them are from foreign countries. The company has a strong R and D unit which looks after development of new parts/units required by automobile industry particularly by the small car manufacturers. The company's financial position sound and has good market reputation.

Develop a BPSM plan to enable the company to achieve sustainable competitive advantage.

Q5) Discuss the principles underlying e-Commerce strategies.

Q6) Write short notes on ANY TWO :

- a) Porter's Five Forces Model of competition.

OR

Personal values and Business Ethics.

b) McKinsey's 7S Frame

OR

GE 9 cell model.

Q7) CASE STUDY (compulsory question)

C A S E

HELPAGE INDIA

The developments in medical sciences—the lowering of mortality rates and the increase in life expectancy—have ironically led to a situation where there are increasingly, a larger number of aged people in the society. The situation in most countries of the world is that the number of ageing people is increasing. India too, like other developing countries, experiences a rapid ageing of the population, with an estimated 80 million aged people. Almost eight out of ten of these aged people live in rural areas.

The challenges that the elderly people in society face are many. For instance, a report in the Indian context indicates the following challenges :

- 90% of senior citizens receive no social security or medical care.
- 73% of senior citizens are illiterate and can only earn a livelihood through physical labour, which is possible only if they are healthy in their old age.
- 80% of senior citizens live in rural areas with inadequate or inaccessible medical facilities; many are unable to access the medical facilities because of reduced mobility in the old age.
- 55% of women over the age of 60 are widows with no means of support.

The elderly people, or senior citizens are the fastest growing segment of the Indian society. By 2025, the population of the elderly is expected to reach 177 million.

Unlike many developed countries, India does not have an effective security net for the elderly people. There have been sporadic attempts by governments at the central and state levels to pay oldage pensions, but like most government schemes, there is a lot of leakage of funds and inefficiency. There is also a lack of post-retirement avenues for re-employment.

Socio-economic developments such as urbanisation, modernisation, and globalisation have impacted the economic structure and led to an erosion of societal values and the weakening of social institutions such as the joint family. The changing mores of society have created a chasm between

generations. The intergenerational differences have created a situation where the younger people are involved in education, career building and establishing themselves in life, ending up ignoring the needs of the elderly among them. The older generation is caught between a society which cares little for them and the absence of social security, leading them to a situation where they are left to fend for themselves. It is in this context that institutions such as HelpAge India play a positive role in society.

HelpAge India, established in 1978, is a secular, not-for-profit, non-governmental organisation, registered under the Societies Registration Act of 1860. Its mission is stated as: 'to work for the cause and care of the disadvantaged older persons and to improve their quality of life'. The three core values that guide HelpAge India's work are rights, relief and resources. HelpAge India is one of the founder-members of HelpAge international, a body of 51 nations representing the cause of the elderly at the United Nations. It is also a member of the international Federation on Ageing.

The organisation of HelpAge India consists of a head office at New Delhi, with four regional and thirty-three area offices situated all over India. The governing body of the organisation consists of ten distinguished people from different walks of life. Besides the governing body, there are three committees: the operations committee, the business development committee, and the audit committee. The CEO, Mr Mathew Cherian oversees the planning and implementation of policies and programmes, with the support of five directors. The regional directors are responsible for their own regions. The program division at the head office chooses the partner agencies to provide the services to the elderly people.

HelpAge India raises resources to perform three types of functions :

- Advocacy about policies for the elderly persons with the national and local governments.
- Creating awareness in society about the concerns of the aged and promote better understanding of ageing issues.
- Help the elderly persons become aware of their own rights so that they get their due and are able to play an active role in society.

The major programmes undertaken by HelpAge India include mobile medicare units, ophthalmic care for performing cataract surgeries, Adopt-a-Gran, support to old-age homes, day care centres, income generation and disaster relief.

The business model of HelpAge India is based on revenue generation through grants and donations from international and national sources. Nearly half of the donations come from international donors. About a fifth of the donors are individuals. The sources of contributions come from fundraising activities that include direct mail, school fundraising, corporate fundraising, sale of greeting cards, acting as corporate agent for insurance, organising events and establishing a shop-for-a-cause that sells gifts made by disadvantaged people.

A review report on the activities of HelpAge India enumerates its strong points as below :

- *Wide Reach and Impact* HelpAge India has been able to impact the lives of a large number of elderly people and their families by adopting a holistic approach that provides immediate relief as well as long-term sustainable improvement.
- *Effective Partnerships in Development* HelpAge India has evolved as a development support agency through creating partner agencies, that is funded to implement the projects.
- *High Degree of Charitable Commitment* Typically non-profit organisations spend a lot on overhead and administrative costs. But HelpAge India is able to put nearly eighty-five per cent of the funds towards actual project implementation.
- *Focus on Efficiency and Transparency* The partner agencies are chosen carefully and monitored thoroughly. This results in increased efficiency and low overheads. Project implementation through partnerships increases efficiency and cuts down on overhead costs.
- *Quality of Management* The management quality of HelpAge India is good and there are a lot of committed people. New employees are also trained to be sensitive to the mission of the organisation.

With a wide spread of activities and being a non-governmental organisation having limited funding. HelpAge India has adopted modern means of information technology and networking. Most of the HelpAge executives work in the field and have no direct access to the office network. They have to use e-mail in order to maintain contact with their regional or area offices. They use cyber-cafes or handheld devices for sending and receiving e-mails. HelpAge has installed a secure connection at an initial cost of Rs. 4 lakh and annual upgradation cost of Rs. 75,000 to access e-mail from anywhere, with a high level of security and protection of data and contents.

The nature of non-profit organisations demands certain requirements. Among these, transparency of operations and funds management is a major one. There are many NGOs that are accused or suspected of misappropriating funds for personal benefit. HelpAge India is conscious of this fact and gives high priority to information disclosure. The audited financial statements and the annual report are available on its website. The financial statements give a detailed account of the expenditure on individual projects. The expenses on travel and salaries of its employees and CEO are also mentioned. The individual donors are provided information regarding the use of the funds donated by them.

The functional approach at HelpAge India consists of developing projects based on the assessment of the needs of its target community rather than on implementing them directly. The implementation takes place through the partner agencies. Rather than outright grants, it supports income generation projects for the elderly people. The success of implementation critically depends on the identification and appointment of partner agencies. The officers of HelpAge India physically inspect the proposed agencies and check on their management to ensure that they are not family-run set-ups established for personal gains. HelpAge India works presently, with nearly 400 partner agencies. These include, for instance about 150 charitable eye hospitals that act as partner agencies for the ophthalmic care programme.

HelpAge India with its slogan of fighting isolation, poverty and neglect moves on its mission of providing 'equal rights, dignity for elders'. It foresees its future activities in the area of rights based advocacy for a better life for the elderly people by bringing them into the mainstream of society rather than being marginalised to the fringes.²³

Questions

1. In your opinion, what is the distinctive competence of HelpAge India?
2. Prepare a strategic advantage profile for HelpAge India.

- Q5)** Write Short Notes (any 4) : **[20]**
- a) Unstructured Interview.
 - b) Uses of Test Marketing.
 - c) Characteristics of a Good Sample Design.
 - d) Need for Advertising Research.
 - e) Methods of Observation.
 - f) Cluster Analysis.

Q6) **[20]**

Case Study

The hotel glut has produced a tremendous windfall for business travellers. Service is up, but prices are not. Because of overbuilding, hotel chains are engaging in an all out service war to pamper the business traveller. Business persons spend about \$34 billion a year at hotels and motels and account for nearly all the occupancy except at resorts.

P.T.O.

The number of available rooms increased 40% during the 1980's resulting in an average occupancy rate in 1989 of 63.8 percent. The break even point for the industry is 65 percent. Thus, about 60 percent of America's hotels lost money in 1990. To make matters worst for profit margin, corporate discounts have become increasingly popular and the size of the discount is going up. From 1985 to 1990 the average corporate discount rose from 18 percent off regular rates to 25 percent.

Yet despite this difficult environment, economy hotels are thriving. When corporations began tightening expense account for lower level employees, demand surged for rooms priced at \$40 per night and under.

The low-end segment of the market was once characterised by seedy independents offering run down facilities on roads along by passed inter state high-ways. The big chains like Marriott, with lower growth in their traditional markets, moved into the economy market segment and began upgrading its image.

Marriott's entry into the economy market is fairfield funs for \$35 per night. The business traveller receives a king size or two double-size beds, a large work area, free cable TV, and a bathroom with a separate vanity area so the traveller will not fog up the mirror with steam from the shower. When guests check out a fairfield Inns, they can rate their stay on two computers at either end of the reception desk. Four questions popped up on the screen dealing with cleanliness service, value for the price, and overall rating; the guest punches a key to indicate excellent poor or average.

Employee bonuses are pegged in the rating.

- a) Would you say that the data gathered at the two computers at the reception desk was marketing research? Why?
- b) What kind of market research information do you think Marriott gathered before it developed the Fairfield Inns concept? Would it be applied or basic research? Why?
- c) Now that fairfield Inns are viable, ongoing operation, do you see the need for other marketing information? If yes, give some examples.

FINANCE SPECIALIZATION

303B: Advanced Financial Management

(2005 Pattern) (Elective - I)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question No.1 is compulsory.*
- 2) *Solve any two questions from Section I and two questions from Section II.*
- 3) *Figures to the right side indicate full marks.*
- 4) *Use of non programmable calculator allowed.*

Q1) Discuss the Recommendations of Tandon Committee. **[10]**

SECTION - I

Q2) What are the importance and limitations of ratio analysis? **[15]**

Q3) Why is it important to evaluate capital budgeting projects on the basis of incremental after tax cash flows? Why not use accounting data instead of cash flow? **[15]**

Q4) Write short notes on (any three) **[3 × 5 = 15]**

- a) Profitability Index.
- b) Types of dividend.
- c) Commercial paper.
- d) Right issue of shares.
- e) Credit rating.

Q5) Explain the important factors to be considered while deciding Dividend payout. **[15]**

SECTION - II

Q6) ABC Company has the following selected assets and liabilities.

	Rs.
Cash	45,000
Retained Earnings	1,60,000
Equity share capital	1,50,000
Debtors	60,000
Inventory	1,11,000
Debentures	1,00,000
Provision for taxation	57,000
Expenses outstanding	21,000
Land and building	3,00,000
Goodwill	50,000
Furniture	25,000
Creditors	39,000

You are required to determine

- a) Gross working capital and
- b) Net working capital.

[15]

Q7) A firm is considering a two mutually exclusive projects Project P and Project Q the details are as follows :

Year	Project P	Project Q
	Cash Flows Rs.	Cash Flows Rs
0	(15,00,000)	(18,00,000)
1	1,00,000	6,00,000
2	2,50,000	6,00,000
3	3,50,000	6,00,000
4	5,50,000	5,75,000
5	7,50,000	5,25,000

Calculate :

- a) NPV @ 14%
- b) Pay back period
- c) Profitability Index

Give your opinion as to what project is to be selected.

[15]

Q8) A proforma cost sheet of a company provides the following data :

Costs (per unit)	Rs.
Raw material	80.0
Direct labour	30.0
Overheads	<u>60.0</u>
Total cost (per unit)	170.0
Profit	<u>30</u>
Selling price	<u>200</u>

The following is the additional information available :

Average raw material in stock: one month; average materials in process: half a month. Finished goods in stock, on average one month.

Credit allowed by suppliers – one month; credit allowed to debtors – 2 months. Time lag in payment of wages – 1½ weeks; overheads – one month. One fourth of sales are on cash basis. Cash balance is expected to be Rs. 3,65,000.

You are required to prepare a statement showing the working capital needed to finance a level of activity of 1,04,000 units of output. You may assume that production is carried on evenly throughout the year and wages and overheads accrue. **[15]**

- 3) *Figures to right indicate full marks.*

Q1) Write short notes on any TWO : **[10]**

- a) Agricultural income.
- b) Minimum Alternate Tax.
- c) Taxability of Gratuity.
- d) Carry forward & setoff of losses.

Q2) Discuss the tax treatment of following items which have been debited to Profit & Loss account of M/s ABC Ltd. for the year ending 31-3-2011 :

[5 × 3 = 15]

- a) Expenditure on advertisement Rs. 26,000 paid in cash,
- b) Litigation expenses for registration of shares Rs. 6,100,
- c) Fees paid for increased authorized capital Rs. 4,700,
- d) Penalty for infringement of law Rs. 6,600,
- e) Contribution to approved research association Rs. 20,000 for scientific research.

Q3) Enumerate with reference to section 10 of Income Tax Act 1961 any ten types of income which are exempt from tax. **[15]**

Q4) a) Write a note on depreciation allowance under section 32 of Income Tax Act 1961. **[10]**

- b) Define the “Person & Assessee” with reference to Income Tax Act. **[5]**

- Q5)** a) Write a note on income from other sources. [8]
- b) An individual sells his residential house at Mumbai on 10th June, 2010 for 20 lacs. He had purchased it for Rs. 2,00,000 on 25-8-1985. [7]
He had spent Rs. 10,000 on routine repairs on 25-2-07.
Calculate capital gain.
[Cost inflation index 1985-86 - 133
 2006-07 - 519
 2010-11 - 711]
- Q6)** a) Write note on tax deduction at source. [7]
- b) Mr. 'X' stays in Mumbai & receives the following for 2010-11 : [8]
- | | |
|----------------------|----------|
| Basic pay | 3,00,000 |
| Dearness Allowance | 50,000 |
| House Rent Allowance | 39,000 |
- Rent paid by Mr. X during 2010-11 was Rs. 48,000. Calculate how much of the HRA is exempt from tax.
- Q7)** a) What is tax planning? How it differs from tax evasion? [6]
- b) Compute the income from house property for the financial year 2010-11 for Mr. Ajay on the basis of following information. [9]
- | | |
|------------------------------|--------------|
| Municipal valuation | Rs. 1,00,000 |
| Fair rent | Rs. 1,40,000 |
| Standard rent | Rs. 1,30,000 |
| Rent received | Rs. 1,35,000 |
| Municipal tax paid | Rs. 30,000 |
| Interest on borrowed capital | Rs. 35,000 |

[Max. Marks : 70

Instructions to the candidates:

- 1) *All questions are compulsory.*
- 2) *State your assumptions wherever necessary.*
- 3) *Figures to right indicate marks.*

Q1) Write short notes on the following (Any 3) : **[15]**

- a) DML.
- b) PL/SQL Functions.
- c) Locks in Oracle.
- d) Joins.
- e) SQL String functions.

Q2) a) What is a View? Explain with example updatable view. **[5]**

- b) Create a View to display employee number, name in lower case, department number, department name and location where salary of employee is more than 10000. **[5]**

Q3) Solve the following queries based on given table structure (Any 5) : **[10]**

- a) Student (PRN No., FName, MName, LName, Course, AcaYear)
- b) HallTicket (TicketNo, TicketDate, PRNNo, SeatNo, CenterNo, SubCode)
- c) Subject (SubCode, SubName, IntMarks, ExtMarks, Type (E/I))
- d) Center (CenterNo, CenterName, CenterAddr, CenterDistrict, CenterCity, Capacity)
 - i) Display center wise number of students allotted.
 - ii) Display number of internal and external subjects.
 - iii) Display course wise center allotment.
 - iv) Display district wise center details.

- v) Display the details of students who have been allotted a center of Pune District.
- vi) Display all the students whose hall ticket is prepared in the month of April 2011 with subject details.
- vii) Display all the students in ascending order of 'course'.

Q4) Write a ADO code to add, modify and delete record for ISSUE/RETURN transaction of Library. **[15]**

Q5) What is IDE of Visual Basic? **[10]**

OR

Write a detail note on MDI and Menu Editor.

Q6) a) Explain any five of the following properties in VB. **[5]**

- i) Autosize property of label
- ii) ToolTipText of command button.
- iii) Value of Checkbox.
- iv) BorderStyle of a Form.
- v) Style of a ComboBox.

- Q5)** Write short notes on (any 3) :
- a) Counter trade.
 - b) IMF.
 - c) NAFTA.
 - d) Balance of Payment.
 - e) Exim policy.

SECTION - II

Q6) C A S E

Tiles and Ceramics Ltd. (TCL)

BACKGROUND AND SWOT ANALYSIS

Tiles and Ceramics Ltd. (TCL), a fairly young firm in Iznik, Turkey faces rapidly changing markets and increasing competition. Iznik is famous for its hand-painted tiles, mostly in different shades of blue. The region's special clay has enabled to produce long-lasting quality tiles over the centuries.

Modern methods of production are new to the industry in Iznik. TCL is regarded as the largest and most modern domestic producer. However, as a manufacturer for the international market, it is considered to be in its infancy and in need of technical and management know-how.

Current production comprises ceramic tiles for walls, flooring and decorative purposes. The company is considering entry into the export trade and diversifying into sanitaryware and tableware. Its managing director is an experienced retailer of tiles and sanitaryware.

Tableware, a product line unrelated to the construction industry, will require separate construction channels.

TCL holds 30 per cent of the domestic market for the ceramic tiles and is facing significant challenges from its closest competitors, BCD and EGF, which have a combined share of 65 per cent. Considering that both these companies were established many years earlier. TCL has been exceptionally successful. The remaining 5 per cent of the market is supplied by imports, mainly from Italy and Germany.

Demand for high-quality, high-priced imports carrying prestigious brand names is increasing as income is rising significantly in certain sections of the population.

TCL's production costs are rising with the costs of imported raw materials, a situation exacerbated by the imposition of an import duty of 40–120 per cent on such items as dyes, moulds and chemicals.

The company's profit margins are shrinking and the impending entry of another domestic supplier is regarded as a threat.

Strengths TCL's Managing director is strongly committed to the idea of exporting and has chosen the Middle East as an initial target market. He has based his choice on informal and experience-related market research he has carried out himself. He has noted that TCL's two largest competitors in the domestic market are exporting significant quantities to the Middle East,

particularly to the Islamic-Republic of Iran and Iraq, where a significant upswing in construction activities (and therefore in demand for tiles and ceramics) is expected.

As a result of a managing director's experience as a retailer in the ceramics industry, he is knowledgeable about general market requirements and the competition. His back-ground as a retailer of sanitaryware will be useful if the company does diverse into this product line.

The entry of other suppliers is expected to erode TCL's domestic market share and therefore to liberate production capacity which it can devote to export operations. Although its profit margins are contracting, the company is still sufficiently profitable domestically to have a solid base for exporting.

TCL's tiles and ceramics are perceived as high-quality but moderately priced products. However, these are available only in a limited variety of designs and colours owing to production constraints.

Weaknesses TCL is a young firm and it is small in international terms. This need not necessarily be a fatal weakness, but it should be taken into account if the company decides to compete with large foreign companies.

The forthcoming implementation of new regulations will exempt TCL from paying duties on imports used for export production.

However, its likely competitors in the export market, particularly foreign firms located where materials such as moulds, dyes, other chemicals and spares are produced, will have definite cost advantage. TCL has no experience of any kind in regard to tableware. The lack of familiarity with distribution aspects may be a disadvantage even in the domestic market. The company's current distribution systems are in the construction industry.

The escalating costs of fuel and natural gas are pushing production costs up. As a result, TCL's products are priced higher than some alternative materials. The prices of its ceramic floor tiles, for example, are 50 per cent higher than those of mosaic flooring.

The control exercised by the national authorities on the tiling industry significantly restricts the expansion of production facilities.

TCL's limit is 500,000 square metres of tiles annually.

Opportunities Exporting could provide TCL a base for shifting to production abroad. In the meanwhile, until the time such a shift can be made, exporting will give it a relief from the costs of holding excess capacity, rising production expenses and duties on imported raw materials.

The shift in domestic consumer preference to foreign products suggests a need for new product ideas. If it manufactures innovative goods. TCL may be able to compete with foreign suppliers in the domestic market.

Threats TCL's two leading competitors and the new company about to start operations are its largest threats on the domestic market. The new company is likely to have more modern production facilities and therefore to have some cost advantage over TCL.

Misjudging the potential of target markets and over or under-estimating the company's resources for meeting this potential could harm TCL. Market research would reduce this danger.

STRATEGIC OPTIONS

The strategic options open to TCL are as follows :

- Delay entry into the export trade and concentrate all resources on domestic expansion. TCL could seek to obtain its raw materials from a cheap supplier (or acquire ownership of a supply source-backward integration), implement other cost cutting measures, position itself as a low-cost domestic producer and thus try to establish an advantage over its competitors, both old and new. As its two established competitors serve the high-quality, high-price end of the market, price cutting could be a profitable strategy.
- Move its production facilities from Turkey to its targeted export market (e.g., the Islamic Republic of Iran and Iraq). TCL could tap the low-cost investment capital available in these countries and build a modern factory with a large capacity. Production on a big scale will lead to products with lower unit costs which it can then market where its new facilities are located; in other Middle Eastern markets and even in Turkey.
- Diversity into either tableware or sanitaryware and export these products along with ceramic tiles. Target markets would include Europe and the Middle Eastern countries that have already been identified.
- Export: ceramic tiles to the markets identified in the Middle East.
- Under all these strategies, TCL will exert efforts together with the rest of the ceramic industry to obtain from the government authorities a reduction or elimination of import duties on raw materials used for producing goods for domestic consumption. By contrast, a rise in import duties on foreign tiles will be sought.

QUESTIONS :

1. Evaluate each of the strategic options suggested above. Do you have any other better alternative to suggest?
2. Suggest suitable international marketing mix strategy for the TCL.

M.B.A. (Sem. - II)
202 : FINANCIAL MANAGEMENT
(New) (2008 Pattern)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Answer any five questions.*
- 2) *All questions carry equal marks.*
- 3) *Use of simple calculator is allowed.*

Q1) Primary goal of financial management is said to be maximization of shareholder's wealth. Whether this objective is realistic in a world where corporate ownership and control are often separate. Discuss. **[14]**

Q2) Explain any three methods of evaluating capital expenditure proposals. **[14]**

Q3) How do you calculate cost of capital in respect of **[14]**

- a) Debenture.
- b) Equity shares.
- c) Preference shares.

Q4) Write short notes (any two). **[14]**

- a) Factoring.
- b) Undercapitalization
- c) Cash budget
- d) Factors affecting dividend policy.
- e) Proforma of fund flow statement

Q5) From the following information, prepare summarised Balance sheet as at 31st March 2009. **[14]**

Stock turnover 6 times

Fixed assets turnover ratio 4 times (cost of sales)

Capital turnover ratio 2 times.

Gross profit 20%

Debt collection period 2 months

Creditors collection period 73 days.

The Gross profit was ₹60,000

Closing stock was ₹5000 in excess of opening stock

All workings should form part of your answer.

Assume 365 days a year.

P.T.O.

Q6) A proforma cost sheet of a company provides the following particulars.

Elements of cost	Amount per unit
Materials	50%
Direct Labour	10%
Overheads	10%

The following further particulars are available : **[14]**

- a) It is proposed to maintain a level of activity of 1,00,000 units.
- b) Selling price is ₹10 per unit.
- c) Raw materials are expected to be in the stores for an average of 2 months.
- d) Materials will be in process, on average one month.
- e) Finished goods are required to be in stock for an average of 2 months.
- f) Credit allowed to debtors is 3 months.
- g) Credit allowed by supplier is two months.

Q7) ABC Ltd has an average selling price of ₹150 per unit. Its variable unit cost is ₹105 and fixed cost amount to ₹75 lakhs. It finances all its assets by equity funds. It pays 35% tax on its income. XYZ Ltd is identical to ABC Ltd, except in respect of the pattern of financing. The latter finances its assets 50% by equity and 50% by debt, the interest on which amount to ₹3,00,000/- Determine the degree of operating financial and combined leverage at ₹1,05,00,000 sales for both the firms. **[14]**

- Q8)** a) Calculate the present value of ₹25,00,000, ₹30,00,000 and ₹40,00,000 receivable at the end of 1st year, 2nd year and 3rd year respectively at an effective rate of interest of 12% p.a. **[6]**
- b) Give a summarized form of horizontal form of a company's balance sheet as per schedule VI part I of the companies Act 1956. **[8]**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *All questions are compulsory.*
- 2) *Write your assumptions.*
- 3) *Figures to the right indicate full marks.*

Q1) Consider the following tables to solve the queries. (Any Five): **[10]**

Emp (empno, ename, job, sal, hiredate, mgr, deptno)

Dept (deptno, dname, loc)

- a) Create emp table with appropriate constraints.
- b) Find the total number of clerks in organisation.
- c) Display employee name and the location at which they are working.
- d) Display the records of employee earning salary between 1500 and 5000.
- e) Display job titles offered by organisation.
- f) Display all the department details.

Q2) Write a function that will take a number as a parameter and returns the factorial of that number. **[10]**

OR

Write a PL / SQL to accept a string and print it in reverse.

Q3) Write short notes (Any Four): **[16]**

- a) Views.
- b) Data types in Oracle.
- c) Date function in SQL.
- d) TCL statements.
- e) Report writing commands in SQL.

P.T.O.

Q4) Explain the properties (Any Five): **[10]**

- a) Auto size of label.
- b) Max of vertical scroll bar.
- c) Tool tip of Dir List Box.
- d) Style of Combo Box.
- e) Forecolor of Form.
- f) Multi line of Text Box.

Q5) Write an ADO code for performing the following operations on Emp table (refer Q.1 for structure of table) **[12]**

- a) Add a record.
- b) Populate data grid to show all records.
- c) Delete a record.
- d) Edit a record.

Q6) Write Short Notes (Any Three): **[12]**

- a) Data types in Visual Basic.
- b) Mathematical functions in Visual Basic.
- c) Directory list box and File list box.
- d) Error handling.
- e) IF and IFF statement.

P.T.O.

SECTION - II **CASE STUDY**

Indian Leather Goods Exports

Leather and leather goods are one of the largest export categories of India. Although there has been a significant increase in the export of this product group, India's performance has been poor in comparison with late comers like China and South Korea. India's share of world exports of leather and leather goods fell from about 9 per cent in the early 1970s to about 3 per cent in the early 1990s.

The Indian leather industry is considered as one with large export potential. Large raw material base, processing facilities and availability of cheap and skilled labour were India's strengths. According to a study by the Indo-German Export Promotion Project (IGEP), India has the basic strength of material and human resources which it must harness to forge ahead.

The Indian leather industry which employs about 15 lakh people is dominated by small family units, many of which have been in this business for generations. The reservation of leather manufacturing for the small scale sector and the licensing policy discouraged the entry of large units in the industry. Leather industry continued under licensing, untouched by the economic liberalization of 1991.

However, of late the market witnessed the entry of big players like Liberty, Phoenix, Lakhani and Aero. Large houses like Hindustan Lever, L & T and Tata have also been in the leather business. Most Indian manufacturers import finished leather from abroad to execute export orders. In fact, many of them merely execute contracts using the buyer's leather in the buyer's colours as per the buyer's designs with the buyer's trimmings.

An interesting development has been that a number of Indian firms who were primarily in the export business have recently turned to the domestic market due to various reasons. In case of Aero it was the collapse of the Soviet Union and the resultant substantial excess capacity with its export oriented unit that provoked it to turn to the booming domestic market and to new markets in Europe. The development of the Indian market, as evinced by the total market expansion and emergence of considerable demand for premium and fashionable products and fierce competition in the international market from China, Malaysia, Thailand and South Korea which combined high labour productivity with low cost inputs have promoted many firms to pay due attention to the domestic market. The list of such firms includes Liberty, Wasan Shoes, Mideast India (which markets the Mescos brand) Hidesign, and

R.Y. Gaitonde and Co. Another interesting development is that several foreign firms have manufacturing marketing tie-ups with Indian firms. Some Indian firms have such tie-ups with more than one foreign firm. Phoenix which has its own brands in the market manufactures for Reebok.

Reebok has manufacturing contracts with Lotus Bawa and Lakhani which also manufactures shoes for Adidas, which is an arch rival of Reebok.

In fact, due to high production costs in the developed countries, firms in those countries have been moving to low cost production bases. Their earlier choices were Korea and Taiwan. Recently they have moved to countries like Vietnam, China and India.

One of the major hurdles in increasing India's exports is the shortage of raw materials. To get a 10 per cent share in the world market, India will need 4.8 million sq. feet of raw leather against the availability of 3.5 million sq. feet. One of the immediate problems to be addressed is to reduce the wastage of hides and skin, the loss on account of which is estimated to be about Rs. 660 crore annually.

The leather technology mission, launched in 1995, had an uphill task in this respect. Over 1500 tanneries had to be modernized.

Government decided to establish a Leather Industry Development Fund (LIDF) through a development fee to be raised in lieu of the export duty abolished in the 1994-1996 Union Budget.

Pollution is a serious problem of the leather industry. Use of certain chemicals/dyes which are not acceptable in foreign markets will have to be stopped. The LIDF should help ensure compliance with international demand for eco-label for leather and leather products.

A new trend in leather manufacture in the developed countries is the use of computers for the simplification of existing machinery in the leather manufacture. Already microelectronics is being applied to certain process of leather goods manufacture. The scale of operation and resources of the Indian units again pose a problem in respect of such modernizations. Further, if and when these electronic and computer controlled machinery are introduced in the Third World countries, the cost differential will be less because operations will be less labour intensive.

Germany emerged as the biggest importer of leather goods in the EC, with over one third of its sales of footwear being accounted for by goods of Indian origin. Other major markets are UK, France, USA, Italy, Japan and the CIS. Demand in Asia is growing. One of the important problems which Indian exporters encounter is the unfavourable.

Consumer attitude towards Indian products.

According to a former President of the Council for Leather Exports, leather goods exports from India face a highly biased international market. At a Paris fair he had himself exhibited goods that could not be bid for more than \$85. But, changing the site of exhibition to a German stall, he could market the same for \$125. Similarly, a jacket that could not be sold for 125 French Francs was accepted for 900 Francs, just because it was carrying a different brand name.

Italian goods enjoy a good reputation in the Western markets. Italian leather goods manufacturers enjoy the benefit of easy availability at low price of the chemicals needed for manufacture of leather goods. Compared to the situation in Italy, though Indian labour is cheap, Indian machinery and chemicals are not up to the mark.

An interesting fact is that, Italy, which is an important supplier of leather goods in the Western market, is one of the most important importers of leather items from India. Indian leather goods imported to Italy are stamped by Italian firms and re-exported to other countries without any further finish or packing. The re-exported goods fetch a better price.

What is worse is that foreign markets buy inferior grade leather from India and finish these for high priced items. Indian manufactures are still unable to utilize such leather to their advantage. This is exactly the opposite in Holland or Italy where inferior grade leather is used in a big way.

QUESTIONS:

1. Discuss the strengths and weaknesses of the Indian leather industry vis-a-vis the international Market for leather goods.
2. Discuss the role of the Government, Council for Leather Exports (CLE) and the industry in the healthy development of the Indian leather industry.
3. Discuss the marketing, including branding, pricing, distribution and promotion, strategies appropriate for Indian leather goods in the international market.
4. What can the CLE do to improve the image of the Indian leather goods?
5. How will the expansion of the domestic market help the Indian leather goods exporters?
6. What are the possible benefits to the Indian firms from the tie-up with the foreign firms?

INTERNATIONAL BUSINESS MANAGEMENT SPECIALIZATION

404 F : International Business Operations

(2008 Pattern) (New)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Attempt any Five questions.*
- 2) *All questions carry equal marks.*

Q1) a) Why “Toyota Production System” is most adoptable amongst international companies.
b) Describe any two main features of Toyota Production System.

Q2) Explain how dispersal of technology takes place in international business.

Q3) Explain inventory control model for manufacturing industries functioning in many countries.

Q4) a) Explain the criteria for out sourcing in international market.
b) Give the role of Benchmarking in international operations.

Q5) What are the challenges in International Logistics with reference to infrastructure and Government regulations.

Q6) Enlist the advantages and disadvantages of Globalisations. Explain any three with examples.

Q7) Write a short note on (Any Two):

- a) Centralisation of R & D activity by international organisation.
- b) E - Commerce.
- c) Difference between Joint Ventures and strategic alliance.
- d) International HR practice.

MARKETING MANAGEMENT SPECIALISATION

405 A : Marketing Strategy and Relationship Marketing

(2008 Pattern) (New)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) Attempt any three questions from Section - I and any two questions from Section - II.*
- 2) All questions carry equal marks.*

SECTION - I

Q1) Why marketing mix ($4P_s + 3P_s$) need to vary as per different stages of product Life Cycle? How?

Q2) Explain in detail different types of offensive and defensive strategies a company need to design in different circumstances.

Q3) Discuss the common trends in strategic marketing management, quoting appropriate examples.

Q4) What do you mean by competition and competitor? What is the procedure adopted for understanding competitors strength and weaknesses and strategic portfolio?

Q5) Write short notes on (Any Two):

- a) Constraint in Marketing Strategy implementation.
- b) Three 'S' of customer services.
- c) Principles of competitive positioning.

P.T.O.

SECTION - II

Q6) “Relationship marketing is a key in managing key accounts in Industrial Marketing”. Comment giving suitable examples.

Q7) “Information Technology has been highly instrumental in making CRM effective”. Discuss with examples.

Q8) Elaborate customer equity - Recency - Frequency Monetary value model (RFM).

Q9) Write short notes on (Any Two):

- a) CRM and customer loyalty.
- b) Competitive advantage through Relationship Marketing.
- c) The Six Market framework.

Instructions to the candidates:

- 1) *Attempt any Five questions.*
- 2) *All questions carry equal marks.*

Q1) What is Strategic Financial Management? Describe in detail '9' S' model.

Q2) Discuss ethical aspects of strategic financial management in the light of current Corporate Scenario.

Q3) Describe strategic wage negotiation. What are the prerequisites of strategic wage negotiation.

Q4) Why it is essential to do corporate ration? Explain any one approach of corporate ration.

Q5) What is 'Financial Engineering'? Explain 'Economic Value Added (EVA) Approach, with suitable example.

Q6) Write short note on the following (Any 2):

- a) Brand valuation.
- b) Design and implementation of V.R.S.
- c) Need of strategic vendor management.

P.T.O.

Q7) Shiv Shankar Co. Ltd. produces and sells three products. A,B and C. Product A is for high income group. B is for middle income group and C is for lower income group. Company needs to adopt different pricing strategy for these products. The company would like to maintain the ratio of their per unit sale prices as 5:3:2 and expects their volumes to be 2000 units, 10000 units, and 5000 units respectively. The ratio of variable cost per unit to sale price is expected to 50% for A, 60% for B and 65% for C. Following are the details about the company's balance - sheet of last year:-

Investment	Rs. in Lakh.
Fixed assets	200
+ Working Capital	100
	<u>300</u>
Funded by –	
Share Capital	60
Reserves	120
8% Borrowings	120
	<u>300</u>

The company projects the other targets as follows

- a) Tax liability at 30%.
 - b) Dividend to be provided at 20%.
 - c) Annual fixed cost would be Rs. 40 Lacs (including depreciation).
 - d) Reserves of the last day of the previous year should increase by 20% during the coming year.
- I) Calculate the selling price per unit for product A, B, and C.
 - II) Calculate return on Investment [ROI] for company.

COMPUTER SPECIALIZATION

404 - C : OOD Concepts and Basic Java Programming

(2005 Pattern)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question No. 1 is compulsory.*
- 2) *Solve any five questions from remaining.*
- 3) *Figures to right indicate full marks.*

Q1) a) Select correct answer from the options.

[10]

i) What is the return type of the read() method of Inputstream class in java.io package?

- 1) Int
- 2) String
- 3) StringBuffer
- 4) Byte

ii) Public class myprog{

Public static void main (String argv[]) {

System.out.println (argv [2]) ; } }

What will be the output if we execute the program with the command given in the next line:

java myprog Good Morning.

- 1) Myprog
- 2) Good
- 3) Morning
- 4) Exception is given : java.lang.ArrayIndexOutOfBoundsException.

P.T.O.

- iii) Which of the following is platform dependent?
- 1) Java virtual machine
 - 2) Java runtime compiler
 - 3) Java compiler
 - 4) All.
- iv) What is the correct ordering for the import, class and package declarations when found in a single file?
- 1) Package, import, class
 - 2) Class, import, package
 - 3) Import, package, class
 - 4) package, class, import.
- v) The “System.out” object used for the standard input operations is instantiated from which class.
- 1) System Class
 - 2) OutputStream Class
 - 3) PrintStream Class
 - 4) Object class.
- b) Write java program to accept number of line on command line and generate following output (if input is 5 on command line): [10]

```

1
2 2
3 3 3
4 4 4 4
5 5 5 5 5

```

Q2) Write applet application to display right scrolling banner. [10]

Q3) Write an application to create following threads. [10]

- a) Display series 1,4,9,16,25,36.
- b) Display series 2,4,6,8,10

Q4) Write an application to count vowels, each separately, from a given file. [10]
(Use Character Stream).

Q5) Define class called Computer. Define subclasses of Computer called desk top and laptop. Accept details of 3 categories. Show accepted information by overriding display method (Define at least three attributes in each class. Assume suitable data). [10]

Q6) Explain “Java is object oriented language”. [10]

Q7) Write Notes on (Any 2): [10]

- a) Event model.
- b) Thread life cycle.
- c) Anonymous class.

P1170**[4075]-104****M.B.A. (Sem. - I)****104 : STATISTICAL AND QUANTITATIVE METHODS****(2008 Pattern) (New)***Time : 3 Hours]**[Max. Marks : 70**Instructions to the candidates:*

- 1) *Solve any two questions from Section - I and any two questions from Section - II.*
- 2) *Use of electronic calculator and statistical tables are allowed.*
- 3) *Graph paper will be supplied on request.*

SECTION - I

Q1) a) 30 house holds in Pune city were surveyed regarding the monthly mortgage payments made by these house holders. These figures are recorded in Rs. 100, as follows

750	640	560	650	1170	880	720	865	900
832	1056	1050	529	685	678	1120	620	765
900	850	980	850	920	1075	760	775	1130
940	989	930		$r_{12} = 0.28$				

Prepare frequency distribution table and calculate mean, median and mode. (Classes : 500-600, 600-700).

[10]

b) Life of car batteries is normally distributed with average life 5 years and S.D. 2 months. What should the guarantee period be, if the company wishes to replace no more than 15% of batteries.

Given area under normal curve for $z = 1.03$ is .3485, $z = 1.04$ is .3506 and $z = 1.05$ is 0.3531.

[7]

Q2) a) Let X_1 , X_2 & X_3 be the heights in (cm) of son, mother and father respectively. A sample of these gave following results. **[10]**

$$\bar{X}_1 = 170 \quad \sigma_1 = 2.4$$

$$\bar{X}_2 = 160 \quad \sigma_2 = 2.7$$

$$\bar{X}_3 = 168 \quad \sigma_3 = 2.7$$

- i) Obtain the equation of least squares regression of X_1 on X_2 & X_3 .
- ii) Estimate the height of son if height of mother is 165 cms and father is of 175 cms.

P.T.O.

- b) The following are the values of exports of raw cotton (X) and the values of imports of manufactured cotton goods (Y) in crores of Rs.

X	42	44	58	55	89	98	66
Y	56	49	53	58	65	76	58

- Find (i) Karl Pearson's coefficient of correlation between X & Y.
(ii) Spearman's rank correlation coefficient between X & Y.

[7]

- Q3)** a) Out of 2000 unskilled workers in a factory 1400 came from rural areas and out of 800 skilled workers 200 came from rural area. Determine the association between skill and residence. [6]
- b) It is known that 18% of males and 12% of females in a town having equal number of them are unemployed. A person is selected at random, what is the probability that he is employed? [6]
- c) The first of two samples has 100 items with mean 15 and S.D 3. If the whole group has 250 items with mean 15.6 and S.D $\sqrt{13.44}$. Find the S.D of The Second group. [5]

SECTION - II

≍

- Q4)** a) Solve Graphically [8]

Minimise $Z = 6x_1 + 14x_2$

Subject to

$$5x_1 + 4x_2 \geq 60$$

$$3x_1 + 7x_2 \leq 84$$

$$x_1 + 2x_2 \leq 18$$

$$x_1, x_2 \geq 0$$

- b) Solve the transportation problem for maximum profit [10]

		Per Unit Profit (Rs.)			
		Market			
		A	B	C	D
Ware house	x	12	18	6	25
	y	8	7	10	18
	z	14	3	11	20

Availability at warehouses

x = 200 units

y = 500 units

z = 300 units

Demand in the markets

A = 180 units

B = 320 units

C = 100 units

D = 400 units

Q5) a) Given below is the information about cost of performing different jobs by different persons. The job-person marking X indicates that the individual involved cannot perform the particular job. Using this information state. [8]

i) The optimal assignment of jobs.

ii) The cost of such assignment.

Persons	Jobs				
	J ₁	J ₂	J ₃	J ₄	J ₅
P ₁	27	18	X	20	21
P ₂	31	24	21	X	17
P ₃	20	17	20	X	16
P ₄	22	28	20	16	27

b) Technico Ltd. has installed a machine costing Rs. 4 lakhs and is in the process of deciding on an appropriate number of a certain spare parts required for repairs. The spare part cost Rs. 4000 each but are available only. If they are ordered now. In case the machine tails and no spares are available, the cost to the company would be Rs. 18000. The plant has an estimated life of 5 years and the probability distribution of failures during this time, based on experience with similar machines, is as follows.

No. of failures :	0	1	2	3	4	5
Probability :	0.1	0.2	0.3	0.2	0.1	0.1

Find optimal number of units of the spare part on the basis of

i) Minimax.

ii) Minimin

iii) Lapalace

iv) Hurwicz ($\alpha = 0.7$)

v) Expected regret cretrion.

[10]

- Q6) a)** Solve the game and obtain the optimal strategies for each player and the value of the game. **[8]**

		Player B			
		B ₁	B ₂	B ₃	B ₄
Player A	A ₁	3	2	4	0
	A ₂	3	4	2	4
	A ₃	4	2	4	0
	A ₄	0	4	0	8

- b) Haggins Plumbing and heating maintains a stock of 30-gallon hot water heaters that it sells to home owners and installs for them. The owner likes the idea of having large supply on hand so as to meet all customer demand, but he also recognizes that it is expensive to do so. He examines hot water heater sales over the past 50 weeks and notes the following.

Hot water heater sales per week	Number of weeks this number was sold
4	6
5	5
6	9
7	12
8	8
9	7
10	3
	Total 50

Using the random numbers given below, simulate demand for 10 weeks and answer the following questions

- i) If stock of 8 hot water heaters is maintained, how many times will the company be stock out in 10 weeks.
- ii) What are the average number of heaters demanded per week.

Random numbers - 10 24 03 32 23 59 95 34 34 51.

PRODUCTION AND MATERIALS SPECIALIZATION

408 D : Case Studies

(2005 Pattern) (Sem. - IV)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Attempt any two cases.*
- 2) *All cases carry equal marks.*

Case No. 1

Renuka Machines Manufacturing Corporation

Renuka Thomas, president of Renuka Machines Manufacturing Corporation (RMMC), is concerned about company's choice of supplier for cleaning brushes, which are used in the company's data processing equipment. Renuka occasionally plays Tennis with Sheela George, President of George Machine Company (GMC), one of the Company's suppliers of cleaning brushes.

Recently, Sheela complained to Renuka that her company has been having difficulty in getting traditional share of Renuka's brush business. On the last buy, Sheela's company failed to get any business, even though Sheela believed she was the low bidder. Renuka tells Sheela that normally she does not get into the details of procurement, but she promises to ask her purchasing manager Dannis Chako to investigate.

The next day morning Renuka calls Dannis Chako and tells him of Sheela's complaint. He said, he does not want to influence the company's procurement policies, but he does not feel that Renuka should investigate to make sure that Sheela's firm was treated fairly.

Purchasing Manager Dannis discovers that Sheela George Machine Company was indeed low bidder on the last buying. Quotation for on order of 20,000 units were as under :

Sheela George Machine Company	Rs. 2.22
Data Matics Electronics Company	Rs. 2.23
Royal Tools and Machine Company	Rs. 2.25

Royal and Data Matics each got orders for 10,000 pieces. Royal has done considerable development work on brushes, while Sheela and Data Matics have done very little. The quality and delivery records of the three suppliers

P.T.O.

on the last ten orders for the brush are shown below. Renuka Machine's mfg. quality control development has set an acceptable quality level of 3 percent on the brush:

Supplier	Quality Ordered	Quantity Defective	Delivery
Royal	4,000	122	One week early
Data Matics	4,000	92	One week late
Sheela	3,000	120	On time
Sheela	6,000	162	Two week late
Royal	4,000	38	On time
Data Matics	5,000	29	One week early
Sheela	2,000	88	1000 pieces on time, 1000 pieces four weeks late
Data Matics	6,000	98	Two weeks late
Royal	4,000	45	One week early
Sheela	5,000	162	One week late

Questions :

- Is Dannie Chaco justified in eliminating Sheela Machine Company as a supplier of brushes?
- In what respect is the complaint from Sheela Machine Company Justified?
- Prepare a report for Renuka Thomas explaining the decision to eliminate Sheela Machine Company as a supplier, use quantitative data as much as possible to support your answer?

Case No. 2

Bagwan Computer Company

The Bagwan Computer Company (BCC) was established in 1991. It has two engineering graduates of Osmania University. The company has maintained an excellent growth record. Today annual sales of the company are 5 crores.

Company's pricing policy is to skim the market - that is when it introduces a new product, it prices the product to quickly recoup R & D investments. The company gets a sizable profit. When profit goes down, the company is in a position to launch a new product which is more profitable than the item it replaces.

The overall strategy has two key resources. One is highly competent R & D group and the other is the ability to convert ideas into marketable hardware quickly. The purchasing department of 'BCC' ensures advanced technology and availability of vendors for all items.

Jimmy Carter, manager of materials of 'BCC', just received a memo reminding him that the annual corporate planning retreat is to be held in five weeks at the company's placement centre. This reminding memo with a recent visit to an important 'BCC's suppliers caused jimmy to recall the current shortages of memory chips. Jimmy decided to review the firm's present supplier's ability to meet profitable changes in advanced technology which lead to increases in demand over the next five years.

Questions :

- a) What areas should jimmy investigate?
- b) What actions should jimmy take, if present suppliers appear to be unable to meet future requirements?
- c) Should materials management, in the absence of materials management functions; be part of the long - range planning activity? Why or why not?

Case No. 3

SABRE ENTERPRISE

Sabre Enterprise is growing organization specializing in manufacture of spare parts for plant and machines. Sabre enterprise started their business as vendor for machining Cast Iron castings. Every day metal scrap / rejected material is collected in bin and stored in a compartment at scrap yard. Other scrap like paper waste, waste packing box etc are dumped in the scrap yard in a separate compartment. Once in four months scrap buyer used to visit the factory and collect the scrap.

However Sabre expanded its activities from CI Castings machining to manufacturing spares from a variety of material like brass, gunmetal, mild steel, Cast Iron etc. The total scrap generated is about 10 tons per year. Now the scrap is being segregated as ferrous and nonferrous and nonmetallic scrap and stored in scrap in scrap yard. Method of disposing scrap through scrap dealer remains unchanged. Storekeeper coordinates scrap disposal activities. The price of scrap keeps fluctuating in the market due to a number of environmental factors.

- a) Sabre has new Materials Manager who feels that existing system of scrap disposal needs to be changed. What should he do?
- b) Explain, Ferrous and Non Ferrous type of material with examples.
