Ample opportunities are provided for research-minded students to hone their research skills and participate actively in pioneering research studies through Ph.D and M.S (by research) programmes. The faculties of engineering, science, Humanities and Management departments, along with their scholars do active research in frontier areas, which often results in highly acclaimed publications in International and National Journals and patents. Most of the research work is also presented in International and National conferences. A large number of sponsored research projects are funded by agencies such as the Department of Science & Technology, Aeronautical Research & Development Board, Indian Space Research Organisation, Ministry of Non-Conventional Energy Sources and Defence Research & Development Organisation, Naval Research Board, Department of Electronics, IGCAR, Atomic energy agencies and other Organisations for tackling the challenging research issues of national interest.
